Reference Doc: Atlas Dashboard — Product Overview & FAQ

Last updated: September 25, 2026 | Owner: M. Osei (Design)

What is Atlas?

Atlas is a customer-facing analytics dashboard built for enterprise accounts. It provides real-time usage metrics, custom report widgets, and role-based access control for account admins.

Core Features

Real-time usage dashboard with configurable widgets. Role-based access (Admin, Editor, Viewer). Single sign-on (SSO) support for enterprise identity providers. Multi-tenant data isolation so each customer's data is fully separated.

Frequently Asked Questions

Q: Which browsers are supported? A: Atlas supports the latest two versions of Chrome, Edge, and Firefox.

Q: Is there a mobile app? A: Not at launch. A mobile-responsive web view is planned, but a native mobile app is not currently on the roadmap.

Q: How is data refreshed? A: Dashboard metrics refresh every 15 minutes; a real-time streaming option is being evaluated for a future release.
